January 27, 2011

Dear Insurance Industry Representatives:

As you know and has been discussed, Nevada LIVE's ultimate goal is for all insurance companies to be in Group A (web services). With web services, the Nevada Department of Motor Vehicles (DMV) will initiate a direct inquiry with the insurance carrier to verify the insurance information. This is an initiative that came at the urging of the insurance industry and its completion is a high priority. Following are the implementation dates for companies to migrate to web services:

- Group B implementation date to move to Group A is no later than **July 1, 2011**.
- Group C implementation date to move to Group A is no later than **December 1, 2011**.

The Insurance Company User Guidelines for Group A and other related documents can be found on DMV's web at <http://www.dmvnv.com/insuranceagents.htm> under the Reporting Publications and Forms.

Your company will need to complete and submit the Administrative Authorization Form with your date of implementation for each National Association of Insurance Commissioners (NAIC) company number writing auto liability insurance in Nevada. A specially created Nevada LIVE Team will work with your company to have all requirements submitted, schedule testing, and move your company into production. The form is available on the DMV's website at <http://www.dmvnv.com/insuranceagents.htm>. Your company must return the completed form to the Department of Motor Vehicles, Central Services and Records Division, ATTN: Nevada LIVE, 555 Wright Way, Carson City, NV 89711-0900, no later than **March 15, 2011**. The Department of Motor Vehicles and the Commissioner of Insurance urge your company to move forward with the migration to web services at your earliest opportunity.

Questions regarding implementation may be directed to the DMV by e-mail at [NvLiveReporting@dmv.nv.gov](mailto:NvLiveReporting@dmv.nv.gov). In addition, you may contact a member of the DMV's Nevada LIVE Team at 775.684.4491. We look forward to working with you as we complete this transition to web services.

Sincerely,

Bruce H. Breslow, Director  
Department of Motor Vehicles

Sincerely,

Brett J. Barratt  
Commissioner of Insurance
